SIGNATURE WINS · ALG FINANCIAL

Supporting a CEO end to end

Each win shows the challenge, what I did, and the result.

Became the CEO's extension, not just his assistant

C-Level Executive Assistant · Feb 2025 – Present

40%
fewer scheduling conflicts

CHALLENGE A busy CEO juggling investor meetings, international travel, and personal and business affairs across time zones.

ACTION
- Took ownership of his calendar, inbox, client engagements and personal errands (about 50/50 business and personal)
- Triaged his inbox daily with priority labels and cross-checked every meeting across time zones
- Vetted meeting requests to protect his deep-work time, and stood in as his point person when he was out of office

RESULT Scheduling conflicts and downtime dropped by **40%**, and team efficiency improved by **25%**.

Helped grow the team across multiple businesses

Partnering with the Chief of Staff

15+
hires supported

CHALLENGE The CEO's businesses needed to grow headcount across different departments at the same time.

ACTION
- Worked with the Chief of Staff on end-to-end hiring, from sourcing to onboarding
- Applied my recruiting background (Bullhorn, multi-channel sourcing)

RESULT More than **15 new hires** and a **30% increase** in team capacity.

Owned travel and recovered missing commissions

Cruise travel and travel-agent commission tracking

$30–40K
commissions tracked

CHALLENGE The CEO travels abroad by cruise 5–6 times a year and earns travel-agent commissions on bookings, which are easy to miss or receive late.

ACTION
- Owned booking, tracking and itineraries for every trip
- Matched each payout to its booking and chased missing or late ones
- Served as the main contact between the CEO and his travel agency

RESULT **20+ bookings** managed and about **$30K–40K** in commissions tracked, so no payout slipped through the cracks.

CASE STUDY · CRISIS MANAGEMENT

A storm, a roof leak and a dead A/C, fixed remotely in 24 hours

Property Coordinator for the CEO's private portfolio of 6 single-family rental homes, managed fully remote from overseas.

THE SITUATION

During a summer heatwave, a heavy storm caused a roof leak at one of the homes. Water dripped into the ceiling unit and shorted out the air conditioning. The tenant had no cooling, the house was at risk of water damage, and I was managing everything from a different time zone.

01

Remote triage and safety

Walked the tenant through temporary water containment and safety steps while I reviewed the property layout and vendor options.

02

Dispatched two trades

Sourced a roofer for emergency tarping and repair, and an HVAC technician for the electrical fault. Set up lockbox access for both.

03

Sequenced the fix

Scheduled the roofer first to stop the water, then the HVAC tech to repair the blower motor, which prevented more electrical damage.

04

Closed the loop

Approved invoices, reviewed post-repair photos from both contractors, and confirmed with the tenant that the A/C and roof were working.

24 hrs Both issues resolved within a day, with no interior drywall damage and zero downtime complaints from the tenant.

Resolved a merchant conflict before event day

Kreation PH · Project Manager and Admin Officer

1
merchant per product category

CHALLENGE Two merchants appeared to sell the same product, which went against our rule of one merchant per product or service.

ACTION
- Spoke with each merchant directly and walked them through the rules in the contract they signed
- Clarified exactly what each one offered

RESULT Confirmed their offerings didn't overlap, settled the dispute calmly and kept the event's exclusivity promise to every merchant.

Delivered 5 annual events, on time, every year

Kreation PH · 2021 – Present

800–1K

Sample SOP: Weekly calendar reset

SAMPLE

SOP-EXC-004 · Executive support

OWNER	WHEN	GOAL
Executive Assistant	Every Friday, 30 minutes	Zero conflicts next week

1. **Pull next week's calendar** and list every meeting, flight and deadline in one view.
2. **Check each time zone.** Confirm the local time for every attendee and fix any that land outside working hours.
3. **Flag conflicts and back-to-backs.** Mark overlaps and anything with less than 10 minutes between calls.
4. **Batch and protect.** Move internal calls to Tue to Thu and hold two 3-hour focus blocks.
5. **Prep the week.** Attach agendas and links, and confirm external meetings by email.
6. **Send the Monday brief** with the week at a glance and anything that needs a decision.

Done when: no overlaps, every meeting has an agenda and a confirmed time zone, and the executive has the Monday brief before their first call.
